

Peebles Water Treatment Works

Water Treatment Works - Peebles, Scottish Borders

Originally built in 1970, in 2022, Scottish Water undertook a project to build a new WTW on the existing site. With core aims upon achievement of a net zero carbon footprint, Ri Cruden were commissioned by Ross-Shire Engineering to provide a Solar PV system on the roof of the new building.

The System

- 288 X 325W Trina Solar Panels 93.6kWp
- 3 x 25kW SolarEdge SE25K Inverters

Contractor: Ross-Shire Engineering

Year: 2022

Scottish Water

Trusted to serve Scotland
